# PRISM ELITE

The overall inspiration was to create works of art that could be personalized for presentation, recognizing outstanding achievement.

A work of art must be perfect in form and proportion before it can be considered for decoration or customization. All of the works in this collection have considered personalization as a major parameter in their creation. Therefore, whether you simply select a piece and present it as a work of art, or completely personalize it for a particular corporation, occasion, or milestone, it is assured to be treasured by the recipient for generations.

The individual works were conceived in order to recognize significant achievement in specific arenas: leadership; integrity; responsibility; sales, and promoting the corporate culture.

The background is a solid teal color. Scattered across the page are several silver, faceted crystal prisms of various sizes and orientations. Some are positioned in the foreground, appearing to be part of a larger arrangement, while others are smaller and more isolated. The prisms have sharp edges and facets that catch the light, creating bright highlights and dark shadows.
